KUMAR DUDAM

+919822037176 dudamkumar457458@gmail.com kumar-dudam kumar-dudam Solapur, India

PROFESSIONAL SUMMARY

BCA graduate from Sangameshwar College, Solapur (**CGPA 8.91**), skilled in **Java**, **Spring Boot**, **React.js**, and **MySQL**. Completed academic projects including **NGO Management System** and **Attendance Management System**, gaining hands-on experience in full-stack web development and backend integration. Eager to contribute to innovative projects and grow as a backend developer.

WORK EXPERIENCES

Web Development Intern | Internship — Mar 2025 - May 2025
Code World Infotech Pvt. Ltd. — *Solapur*

- Developed a **Netflix Clone** using **HTML, CSS, JavaScript, and PHP** with responsive user interfaces.
- Implemented content browsing and navigation features to enhance user interaction and accessibility.
- Integrated frontend and backend components to support dynamic application functionality.
- Conducted testing and debugging activities to identify issues and maintain application stability.

Technologies / Skills Used : *HTML, CSS, JavaScript, PHP*

EDUCATIONS

Sangameshwar College | Solapur, Maharashtra — 2023 - 2026
Bachelor of Computer Applications (BCA) — *CGPA : 8.81*

Late Sangappana Kenganalkar Junior College | Solapur — 2021 - 2023
Higher Secondary Certificate (HSC) — *Percentage : 69.17%*

Shri Sainath Madhyamik Vidyalaya | Shirdi, Ahmednagar — 2018 - 2020
Secondary School Certificate (SSC) — *Percentage : 64.00%*

PROJECTS

NGO Management System | Github

- **Built a full-stack application** for volunteer registration, event scheduling, and donation management.
- **Implemented REST APIs** to facilitate communication between frontend and backend components.
- **Simplified administrative activities** through workflow automation and centralized record management.
- **Created responsive user interfaces** using **React.js and Tailwind CSS**.
- **Managed data efficiently** through MySQL database integration.

Technologies / Tools Used : *Spring Boot, React.js, Tailwind CSS, MySQL*

Smart Complaint Follow-Up System (SmartResolve) | Github

- **Developed a full-stack complaint management system** using **Java and Spring Boot** for complaint registration, tracking, assignment, and status management.
- **Designed and implemented RESTful APIs** for authentication, complaint management, assignments, comments, notifications, and user management.
- **Implemented Spring Security, JWT-based authentication**, Google OAuth2, BCrypt password hashing, and role-based access control for USER, SUPPORT, SUPERVISOR, and ADMIN roles.
- **Used JPA/Hibernate** for entity mapping, database relationships, CRUD operations, and MySQL integration.
- **Implemented complaint status workflow**, status history, SLA monitoring, automated SLA breach detection, and user-specific notifications.

Technologies / Tools Used : *Java, Spring Boot, Spring Security, JPA/Hibernate, REST APIs, MySQL, JWT, OAuth2*

SKILLS

Databases :	MySQL, MongoDB
Frameworks & Libraries :	React.js, Spring Boot
Programming Languages :	Java, Python, C, C++, JavaScript
Soft Skills :	Problem Solving, Team Collaboration, Communication Skills, Analytical Thinking, Adaptability
Tools & Platforms :	Git, GitHub, Postman, VS Code, Eclipse

AWARDS & ACHIEVEMENTS

- **Winner** – National-Level Computational Programming Competition (C/C++) at **Dexter Innofest 2025–26**, Solapur University.
- **Winner** – National-Level Computational Programming Competition (C/C++) at **TECHNOVA 2025–26**, VVP Institute of Engineering, Solapur.
- **Third Prize** – College-Level C Programming Competition.
